

## The office planning

We in the office spent much of our time the first seven months of 2017 on looking into the situation and the needs of our federation, building networks and starting to create a sustainable structure and clear routines for the federation. We are now ready to take the next step. We have made suggestions on plans for the autumn 2017 and for 2018, the board has approved them and now it's full speed ahead. As for 2018, we have applied for funding for various projects to Riksidrottsförbundet, for these and for funds from the ICC, we are awaiting notice in October/November. Important to note that the plans for 2018 might be adjusted depending on how much funding we'll be granted.

Part of building a sustainable structure is that we now form two working groups, "competition / national team" and "education / development". These two with the purpose of gathering skills and different perspectives to assist in our work to build a sustainable, well-organized and flourishing federation. These groups will be important for "bouncing ideas with", and we will also be co-operating with RF, ICC Europe, other SF (special sports federations) and other collaborators who can help us in our development work in these important areas. There is so much experience and knowledge that can help us, and be part of our journey, towards 2025! More about these working groups in the future.

### Focus the coming year:

- To continue the work of creating a "we" in Swedish cricket and to build a stable and sustainable organization, where dialogue and communication are key elements for this.
- Plan and implement activities for 2018-2019 with a red thread towards #svenskricket 2025

## 2017 (autumn):

And we also need to spend much of our time on ongoing administration and organizational issues, such as:

- Various reports to for instance RF and ICC
- RF / ICC applications for funding
- Accounting and budget work
- Personnel management
- Board meetings
- Meetings, email and phone contacts on a regular basis

## 2018

### Activities:

*The following activities are only plans at this point, as we do not yet know how much funding we will receive from RF and the ICC for 2018. During October / November, the decision from RF and ICC will be announced. The projects we applied for to RF form the basis for much of the development work we are planning for 2018-2019. These plans will then be discussed with the clubs, for example during Utvecklingsträffar.*

- Administration of Idrottslyftet: Reports 17 + New Period 18
